

Slow Cycling

Event Description

Slow Cycling is a balance-based competition where participants must ride a bicycle as slowly as possible without touching the ground.

Rules & Guidelines

1. Participants must use the bicycle provided by the organizers (if applicable).
2. Touching the ground with feet will result in disqualification.
3. Participants must stay within the marked track.
4. Sudden stopping or zig-zag movement is not allowed.
5. The participant who completes the track in the longest time without faults wins.
6. No physical assistance is allowed.
7. Helmets may be mandatory as decided by organizers.
8. Judge's decision will be final.

Competition Rulebook

1. The race track length is usually **30–50 meters** (can vary by organizer).
 2. Riders are divided into **heats**; the **top 2 slowest riders** from each heat advance.
 3. Semi-finals and finals are conducted with the same rules.
 4. The **last 3 riders** to cross the finish line (without breaking rules) are awarded.
 5. If multiple riders cross at the same time, the referee may call for a **re-run**.
 6. Any rider who touches the ground, leaves the lane, or stops moving is **disqualified**.
 7. The winner is the rider who crosses the finish line **last while still balanced and moving forward**.
